Advanced Project Management: Essential Project Procurement & Contract Management for Construction and Real Estate Professionals

The Project Management Conference in Toronto will provide you with proven techniques, tools and skills for managing contracting and procurement on projects. Whether you are starting a new project or well on your way on an existing build, this program will guide you through today's project delivery strategies and contractual arrangements. Learn the benefits, the risks and how to monitor contractors and vendors for optimum performance.

This one-day conference is suitable for all stakeholders in construction and real estate operations including building owners, property management, contractors, architects, engineers, interior designers, asset managers, project managers and building professionals who need to acquire the knowledge, skills and competencies to help be effective project managers and process leaders.

Full Day Schedule

8:00 a.m. - 8:30 a.m.

Registration & Breakfast

8:30 a.m. - 12 noon

Morning Session

12 noon - 1:00 p.m.

Networking Lunch

1:00 p.m. - 4:30 p.m.

Afternoon Session

Note: Registration includes morning coffee, refreshments and lunch.

Program

Procurement management, and especially project contract management, has become an essential project management skill in today's trend of outsourcing.

We will guide you through today's project delivery strategies and contractual arrangements. Learn the benefits, the risks and how to monitor contractors and vendors for optimum performance. This one-day course will provide the fundamental tools required for managers to achieve the most efficient working relationship with vendors. It will also offers you an insight into the role of the procurement officer or buyer on a project team.

Learning Objectives

Participants will gain practical knowledge and skills to be able to:

- Use proven techniques, tools and skills for managing contracting and procurements on projects
- Know how to plan and control the procurement management scope of work
- Understand and use procurement management terminology
- Define the work required to manage a specific contract
- Make a plan for administering the contract and managing the vendor
- Co-ordinate and monitor activities of on-site contractors in a commercial and professional manner
- Value the importance of knowing the contractual requirements

Educational Credits

For professionals collecting continuing education credits, this full day conference qualifies for **7 PMI PDUs** (each half day session qualifies for 3.5 hours) and **7 OAA (Ontario Association of Architects) ConEd Learning Hours.**

Presenter

Darya Duma, Vice President
Procept Associates Ltd.

Darya Duma, PEng, PMP, PRINCE2 Practitioner is a Senior Consultant with Procept, managing their project management (PM) consulting business, and was the Quality Manager responsible for maintaining their ISO 9001 registration. Practice areas include PM methodology design, PM software implementation, and course design and delivery. Darya was a member of the PMI REP Advisory Board, and is a member of the Canadian Mirror Committee on ISO/TC 258 for Project, programme and portfolio management. Her corporate customers include Canada's two largest nuclear electricity generators, a defense contractor and two mining corporations. She was (and still is) a practicing Project Manager for over 20 years, with extensive international experience, including developing national and international standards for CSA and ISO, and managing elevator installations for a mechanical contractor.
